MADE IN EUROPE at the Fusion.Factory

Our factories specialise in making FUSION clothing and ONLY FUSION clothing so we are able to ensure that the quality of our product is made to the highest standards our customer expect from us. Production operates according to a strict FLOW principle, which facilitates smaller production batches and enables us to deliver quick turnaround times for maximum product availability all year round. Waste is therefore kept to an absolute minimum.

FLOW SYSTEM

Our system ensures that the shop has the exact items in stock through regular, weekly reordering based on a seasonally determined range. The FLOW system is supported by our Fusion Factory, which manufactures FUSION's garments in accordance with a FLOW principle and ensures customers are not required to place large pre orders for product months in advance of when it is required.

OEKO-TEX® CONFIDENCE IN TEXTILES

OEKO-TEX® labels show that the material has been tested and approved in accordance with the requirements stipulated by the international OEKO-TEX® Association. These requirements address the content of chemical substances, which are harmful, or suspected of being harmful to the body.

FUSION C3

The FUSION C3 range gives you optimal training product with ultimate comfort, quality and design enabling you to train harder and longer.

FUSION C3+

State of the art products with extraordinarily high technical functionality.

FUSION SLi - SUPER LIGHT.SUPER FAST.

Use FUSION SLi products because they are faster, lighter and provide the right support for optimal performance when your pulse is high and you are pushing yourself to the limit.

FUSION S

The sum of Be Unstoppable. Use FUSION S products when you need protection from the elements. They are products designed to protect you from wind, water and cold weather.

A man with short, light brown hair and a slight smile stands in front of a rugged, rocky background. He is wearing a black long-sleeved athletic top with 'FUSION' written on the chest, a red life vest, and black cycling shorts with 'FUSION' on the leg. He is holding a red helmet in his right hand.

USED

+1.000

TIMES!

” These MULTISPORTTIGHTS have helped me in more than 1000 races and training sessions over the last 10 years. Whether I run, mountain bike, inline, cross country, kayak, indoor rowing, strength training, sea swimming or anything else.

They are now easily faded, but they are neither thin-worn nor limp in elastic and I am a wild fan.”

POUL BRIX BJERREGAARD

**DURABLE
PRODUCTS
SINCE 1999**

S1 RUN JACKET

Windproof and water-repellent jacket – an extra layer of protection when jogging in bad weather.

A photograph of two cyclists riding on a paved path through a forest. The cyclist in the foreground is wearing a grey long-sleeved jersey, dark shorts, a white helmet, and sunglasses. He is leaning forward in a racing position. The cyclist in the background is also in a racing position, wearing a similar outfit. The path is surrounded by trees with bare branches, suggesting autumn or winter. The lighting is bright, casting shadows on the path.

A full-page photograph of triathlete Patrick Lange celebrating his victory at the Ironman World Championship. He is in the center, wearing a blue triathlon suit with "ERDINGER ALKOHOLFREI" and "CANNON" logos, and a race bib that reads "M1 LANGE". He is holding a black banner that says "IRONMAN WORLD CHAMPIONSHIP" above his head with both arms, and his mouth is open in a shout of triumph. To his left, a man in a dark blue t-shirt with the "amazon" logo is clapping. To his right, a woman in a grey t-shirt is also clapping. The background is a large, cheering crowd of spectators. The ground is a red carpet with "IRONMAN WORLD CHAMPIONSHIP" printed on it. In the bottom right corner, there is white text providing details about the victory.
